Product Name :
Palletizer Machine

Product Code :
PLZR0001

Description :

Palletizer Machine

Technical Specification :

Palletizers are used for food and beverage, chemical industry, etc.; Package is suitable for all kinds of cartons, plastic boxes, the stretch film and barrels, and other types of packaging's stack

Using touch screen operation to realize man-machine dialogue, can display the production speed, the cause and location of the failure, and the degree of automation is high. PLC can be programmed to control the sorting and stacking layers, pallet supply and discharge of cartons.

Pneumatic components and cylinders produced by Taiwan Airtec are used, with reliable quality and performance.

The safety door and cover are equipped with electrical induction devices. When the cover door is opened, the machine stops working, which can protect the personnel.

The adjustment of stacking mode is convenient and simple, and can be carried out on the touch screen.

The carton supply system is controlled by a brake motor to ensure that the film package is delivered according to the preset position.

The pallet library has a large capacity, which can accommodate 10-12 empty pallets, and can automatically supply pallets.

Several stacking methods can be completed without changing the stacking parts.

The safety door has an automatic induction function. When the safety door is opened, the equipment automatically stops palletizing, which can effectively ensure the safety of the operator. When the safety door is closed, the equipment automatically resets and continues palletizing.

Customized size and specification as per your drawing or sample. We Palletizer Machine suppliers UAE Dubai, can make the Palletizer Machine as per your request, specification, size and bulk quality Dubai.
