Product Name :
Smoking Chambers for Cold and Hot Smoking

Product Code :
UAEASC0001

Description :

Smoking Chambers for Cold and Hot Smoking

Technical Specification :

Air duct in the area of the circulation fan area is allowed to increase the efficiency of the impeller by 20% (the speed of smoke-air mixture at the nozzles 30 m/s). Reducing the time of all the processes in comparison with European chambers. As a consequence of the reduction of heat loss by at least 1-2% even against similar imported analogues.

Due to the modernization of the smoldering smoke generator camera, we have improved the smoke-drying properties of the resulting smoke: increased its coloring and aromatic properties. Also it is made possible to significantly increase the density of the resulting smoke and eliminate the likelihood of fire chip. There is no fire in our smoke generators.

Customized size and specification as per your drawing or sample. We Smoking Chambers for Cold and Hot Smoking suppliers UAE Dubai, can make the Smoking Chambers for Cold and Hot Smoking as per your request, specification, size and bulk quality Dubai.
