Product Name :
Concrete Slab Mould

Product Code :
EQUP-UE-MUD0003

Description :

Concrete Slab Mould

Technical Specification :

Our company is a steel concrete block mould manufacturer integrating product development, design, processing and sales. The company has standard modern production plants and high-precision processing equipment of the domestic advanced level. The company has a group of high-tech personnel. The mold plates are made of high-strength manganese steel and chromium steel. After the most advanced domestic carburizing treatment method, the mold hardness can reach more than 60 degrees, which greatly improves the wear resistance of the mold. The mold parts are large. Part of the use of precision casting mold accessories, the company's products have been well received by new and old customers all over the country since they went on the market. The products have been sold all over the country and exported to many international markets. Optimized milling strategies and hardening technology ensure the high quality of our moulds which is distinguished in many spheres as showing follow:

Technical advantages:

Optimal wear and tear

High abrasion resistance

Ideal surface texture

Good dynamic properties

Accurate measurements and contours

Extremely long durability

Customized size and specification as per your drawing or sample. We Concrete Slab Mould suppliers UAE Dubai, can make the Concrete Slab Mould as per your request, specification, size and bulk quality Dubai.
