Product Name :
Solar Thermal Water Heater

Product Code :
EQUP-UE-SWH0002

Description :

Solar Thermal Water Heater

Technical Specification :

Temperature when exposed to sun without water: 250degree, 2.5 hours to boiling point if using single tube
If you use electrical appliances, it will begin to work when the temperature of the water is below 60degree, and will switch off automatically when the temperature reached 60degree.

You have to test the water temperature before using, in order to avoid scalding

Super anti-erode outer tank: Outer tank is made by stainless steel 304. Best anti-erode material, Especial for the seaside area, such as East South Asia, Mexico etc.

Feeding water automatic: with special design, feeding water automatic, and ensure the outlet water as stable temperature.

The water will not flow into the tubes directly, the system will still work even the tube broken.

Inner tank: SUS304-2B food-grade stainless steel.

Vacuum tube: High efficient coating 58*1800/2000/2100mm vacuum tube, Hail resistance: 25mm-40mm

Outer tank: Painted/aluminum zinc coated steel/SUS 304 stainless steel, free welding technology

Insulation layer: High density polyurethane, 72 hours efficient heat preservation

Frame: Stainless steel /Aluminum alloy/galvanized steel. anti-corrosive and anti-ultraviolet

Customized size and specification as per your drawing or sample. We Solar Thermal Water Heater suppliers UAE Dubai, can make the Solar Thermal Water Heater as per your request, specification, size and bulk quality Dubai.

Solar Thermal Water Heater Suppliers UAE, Exporters Dubai
