Product Name :
Full Automatic Dryer

Product Code :
EQUP-UE-LAD0001

Description :

Full Automatic Dryer

Technical Specification :

Computer control and simple operation

Computer intelligent automatic control, presetting 5 automatic programs is allowable, user can set temperature, time, REV according to different sheet, taking care of sheet during drying.

Stable running and simple maintenance

Transfer system adopts double belt transmission to ensure stable running and bring simple daily maintenance.

Multiple-wing balance wind wheel design to control deposit floss, low noise, stable running.

Human design, safety and convenience

Super diameter design for loading door to bring convenience for loading clothes and unloading clothes, door depth is connected with drum inner face to avoid damaging sheet.

Drawer style of floss collection device to pull out for cleaning, so that reduce daily clean strength.

User can choose from Stainless steel or carbon steel panel, excellent material of temperature-isolating to prevent heat from emanating for taking from machine face temperature.

Fast drying, high efficiency and energy-saving

HG Series dryer adopt heat exchange device of large specification to effectively expand heating area, fast raise temperature, short drying time.

Inner drum adopt super design of high-density ventilation over 7800mm to ensure heat cross sheet and equipped with ventilation of refined design, effectively utilize heat to make sheet become dry during short time and save energy consumption.

Single and dual direction of drum rotation can be set, intertwist and shrinking of large piece of sheet can be prevent to ensure high effective drying effect.

Customized size and specification as per your drawing or sample. We Full Automatic Dryer suppliers UAE

Dubai, can make the Full Automatic Dryer as per your request, specification, size and bulk quality Dubai.
