Product Name :
DRY Cleaning Machine

Product Code :
EQUP-UE-DRY0001

Description :

DRY Cleaning Machine

Technical Specification :

Steaming, heating, good drying effect.

High rate of detergent refrigeration recovery.

No harm, no color-fading and no crumple will be seen when nylon, silk, chemical fabric, fur coat, feather coat and cotton fabric are washed.

It can be widely used in hotels, restaurants, dry cleaner, hospitals, industrials and mining enterprises, troops, airports and ocean liner.

It has high quality recycle working system, including filter, still tank, still cooler, water separator and cleaning tank, which can save solvent (perchloroethylene), more than 99.8% solvent can be recycled, no pollution to the air, no harm to human, keep the room fresh.

High-speed fan can speed up the drying and cooling rate

Three bottom tanks separate clean, dirty and working solvent, which can avoid mixing the solvent.

Customized size and specification as per your drawing or sample. We DRY Cleaning Machine suppliers UAE Dubai, can make the DRY Cleaning Machine as per your request, specification, size and bulk quality Dubai.
